THE PRINCIPLES OF ELGINKAN GROUP

1951

Establishment

Elginkan Group, founded in 1951 is one of the leading building and heating materials manufacturer that operates with 14 production facilities and 21 companies . The modern production facilities are located in Manisa/Türkiye and sets an outstanding example of European standards. Having a vertically integrated structure, group strictly controls the supply chain processes, which guarantees the prominent product quality and service excellence for all product lines.

1957

Plumbing, Heating and Industrial Valves

Valves production under E.C.A. brand started in 1957. By the end of the 1960's, growing brand awareness of E.C.A valves had spread throughout Türkiye and it became the market leader.

We believe that quality and flexible production is the most important tool for the success of a long-last-

ing organization. Therefore, we focus on customer satisfaction throughout all processes from the beginning. With its design, production, marketing and after sales services the reputation of E.C.A. brand has been known for its long term quality assurance.

1969

Steel Panel Radiators

Established at Istanbul in 1969, Radiator factory started its operations with the production of alloy aluminum pressure die casting and parts required by the automotive industry. The company started panel radiators production under the E.C.A. brand, with semi-automatic welding lines at the 1st section of Manisa Organized Industrial Zone in 1990. Enhancing its manufacturing technology in 2001, ELBA has replaced its old lines and with fully automatic and advanced production facilities.

1973

Cast Iron Radiators, Manhole Covers and Parts

Founded in 1973 and located in Bilecik / Türkiye. Cast Iron Factory manufactures cast iron products and semi-products. It produces automotive cast iron parts and components, cast iron radiators and manhole covers.

The factory is an integrated facility with its metal melting, various molding and casting lines, sand preparation units, coreroom, cleaning units, completion and assembly units, enamel preparation and enameling units.

1978

Taps and Mixers

The foundation of Taps and Mixers Factory was laid in 1957, started its operations at Istanbul in 1978.

The Taps and Mixers factory incorporates an indispensable approach for "generating the top-quality products with an advanced technology", in pursuance of meeting the high demand for faucets, taps and mixtures under the E.C.A. brand. In 1992, the company's manufacturing facilities in Istanbul moved to Manisa Organized Industrial Zone. to ensure cost effectiveness, increased planning and research-development productivity as well as optimum use of all company resources.

Main product range of the brand is composed of single lever and classical mixers, technological faucets and complementary products.

1980

Export

Eleks Dış Ticaret A.Ş, is the export division of the Elginkan Group, started its operations in 1980, in order to manage all sales and marketing activities of taps and mixers, ceramic sanitary wares, heating and plumbing valves, steel panel and cast iron radiators and gas & electrical boilers in global markets.

Eleks Dış Ticaret A.Ş exports to more than 100 countries, including entire Americas, Europe, Middle East, Central Asia, Russia and CIS, and reaching Pacific Asia including China.

1981

Ceramic Sanitary Ware

Elginkan Group has been performing its ceramic sanitaryware production under the SEREL brand since 1981 with globally acknowledged design awards. SEREL is amongst one of the leading companies which offers affordable, aesthetic and ergonomic green certificate products to the world markets with a professional man-

agement approach.

Having a rigorous, innovative, and pioneer approach in its product development activities, SEREL considers all customer demands in detail and adopts unique designs.

1985

Gas and Electrical Boilers

Since 1985, group's Boiler Factory has been operating under the E.C.A. brand, and it has been amongst of the leading players in heating industry.

Boiler Factory started as a joint venture by producing gas boilers in the early 1990's. Starting with 2004, Elginkan Group started to manufacture its own engineered and patented boilers. Along with the production of central heating and wall hung (condensing and non-condensing) boilers with gas and electricity, and high capacities up to 150kw, facilities are located in Manisa.

1985

Elginkan Foundation

The Elginkan Foundation is a pioneer in providing professional and technical training centers that are divided

into three main areas. It offers courses on development, optimization, and overall quality management. The training courses are offered by specialist instructors from the vocational schools and the Ministry of Education. Trainees take an exam once they reach the end of their program. After successfully completing this examination, the trainees receive a "Certificate of Achievement" from the Ministry of National Education. Participation in an apprenticeship is also awarded with a "seminar participation certificate".

2001

E.C.A. Germany

E.C.A. Germany GmbH is a part of the Elginkan group of companies founded in 2001, for the sales and marketing of group products. Elginkan Group is one of the largest exporters in Türkiye promoting E.C.A. and SEREL brands. E.C.A. Germany leads the corporate community in Europe, and it ensures the promotion of high-quality products that achieved success and popularity throughout Germany.

SUSTAINABILITY

E.C.A. SEREL's aspect of ecological framework, establishes main principals of living together in harmony with respect to human and nature where we particularly care about future and being together for years.

Products from E.C.A. SEREL combine excellent ecological properties with an attractive design. You save water and heat, and at the same time offer outstanding hygienic properties. These services are rewarded internationally and are verified by numerous certificates and important eco-labels.

E.C.A. SEREL sustainable living depends on natural resources. For 71 years, E.C.A. SEREL has designed and produced products that minimize the consumption of non- renewable natural resources. It is a holistic state of mind in every single process that means quality, innovation and design should responsibly serve for the people and the environment.

Increasing environmental problems do influence our choices, also there are other aspects like features, durability, aesthetics, and materials. Sustainability requires a life- cycle approach, and it should be holistic way of thinking that analyzes the sourcing of raw materials, transport, manufacturing, packaging, and contamination as well.

We see the ecological framework as the main principle of living together

“Harmony between people and nature, whereby the future and the years of being together are particularly important to us.”

MEETING DEMANDS WITH E.C.A. SEREL

Numerous international design awards confirm our business ethics. Only a basic analysis and consideration of our customers' needs allow us to design and develop fittings and sanitary products that meet all requirements in terms of function and form.

High aesthetical and functional demands characterize the expectations of our international designers and business partners

for our products. We are proud to meet the global tastes in more than 100 countries, with their very different cultural backgrounds. Numerous awards, to which new awards are added every year, show that our designs are convincing worldwide.

"A satisfied customer is the best business strategy of all."

QUALITY COMES FIRST

We put emphasis on faultless goods. This production requirement comes as a priority, which we guarantee with strict quality specifications and controls as well as constant further development. In addition to numerous national and international product certificates, the production facilities are certified with ISO 9001 (quality management) and ISO 14001 (environmental management).

Don't settle for less!

E.C.A. SEREL proves its durability with all tests in the most challenging conditions determined by EN Standards.

	EN STANDARDS	E.C.A.
